

Vertical pillow-type packaging machine for powder and granules

MC501

MC501 is a vertical pillow-type packaging machine for small quantity of material. It is suitable for packaging roasted small pieces of rice cake, roasted peanuts, and so on, as well as powder and granules. A tetrapack packaging machine is available. Since a microcomputer is built in, setting the pitch is easy and the data for various kinds of products can be store in memory. Therefore, the operability is excellent.
